

# SHOUT FOR HELP

Have a problem? seek help...

[www.shoutforhelp.org](http://www.shoutforhelp.org)

## **Mission**

LK Foundation Trust works through a platform to save lives, defeat poverty, achieve social justice and help the distressed.

## **Vision**

We seek a World of hope and social justice where poverty has been overcome and all people live with honour & dignity.

## **About LK Foundation Trust**

The passion behind LK Foundation Trust stems from the belief of its Founder and Trustees that in everyone's life there are ups and downs at some point and during the good times there are friends but during bad times there is none around. The bad times could be of varied nature such as financial, medical, legal or educational and it is often seen that due to lack of timely advice, support or guidance, many people face hardships, leading the vulnerable to take unpleasant decisions.

With this viewpoint of enabling the poor and underserved overcome hardships in life, the Trust desires to extend a helping hand during their times of crisis. It shall be our endeavour to foster and promote familial and communal well-being and advancement for those contending with significant trauma or adversity. Towards this end, we wish to bring Philanthropist Experts<sup>1</sup> and Help Seekers onto one platform to help resolve various issues, thereby creating a happy and peaceful society.

*[1 Philanthropists Experts would include – Professionals like Doctors, Lawyers, Chartered Accountants, Company Secretaries, Scientists, Professors, IAS, IPS, Bankers, Trusts, NGOs, Social Service Provider, Government Departments, teachers, lecturers and Social Workers; apart from these categories anyone having significant experience in any areas such as Healthcare, Finance, Legal and Education but not having any professional qualifications will also be considered as the Philanthropist Experts for the sake of this portal.]*

## **Problem that to be solved using the SFH platform**

we found that when the 'help seeker' wanted help when he is in distress & he wouldn't know how to contact the right philanthropists experts for seeking their advice & help; likewise Philanthropist Experts who are always willing to help the needy but you could not reach out to the needy on time! Due to this gap, many people in the country are suffering and they are constrained to resort to the extreme decisions. we thought of bridging the gap by creating a platform SFH, where in connecting both Philanthropists and Help Seeker and thus we can serve the needy in a transparent, democratic & timely way to save the lives of the people, also to inculcate the culture of rendering the selfless service - Seva. More importantly, to spread the culture of giving back by larger section of people so that society becomes more trustworthy & stronger nation.
